## Profile

Frontend Developer with **3+ years of experience** building scalable web applications using **React.js**, **Vue.js (basic familiarity)**, and modern JavaScript ecosystems. Proficient in **ES6**, **HTML5**, **CSS3**, and REST/JSON integrations, with a strong grasp of the full development lifecycle. Passionate about Agile workflows, performance optimization, and continuous learning. Committed to contributing to collaborative tech communities and leveraging growth opportunities.

## Professional Experience

### Frontend Developer (Freelance & Open Source) | Remote

2022 – present

- Developed **15+ React.js applications** using ES6+ and modern CSS, ensuring compliance with REST/JSON standards.
- Collaborated with cross-functional teams to deliver end-to-end solutions, from prototyping in **Figma** to deployment.
- Optimized application security by implementing **HTTPS** protocols and secure API communication.
- Streamlined testing processes with **Jest** and **Cypress**, achieving 90%+ test coverage in critical projects.
- Mentored junior developers in code reviews, fostering best practices in React and JavaScript.

### Newtechies, Frontend Developer Intern | Remote

2021 – 2022

- Translated design mockups into responsive UIs using **HTML5**, **CSS3**, and **React**, adhering to Agile workflows.
- Debugged and refactored legacy JavaScript code, improving performance by 20%.
- Gained exposure to **Vue.js** through collaborative projects, enhancing adaptability across frameworks.

## Skills

### Core-frontend:

React.js (Advanced), Vue.js/Angular (Basic), JavaScript (ES6+), HTML5, CSS3 (Flexbox/Grid, SASS, Tailwind)

### Tools:

Git/GitHub, Figma, Jest, Cypress, Webpack

### Protocols

REST, JSON, HTTPS

### Development Lifecycle

Agile/Scrum, CI/CD, Testing (Unit/E2E), Deployment

## Projects

### E-Commerce Platform | React/TypeScript

- Built with **REST APIs** for product management and **JSON** data handling.
- Styled with **Tailwind CSS** and optimized for cross-browser compatibility.

### Healthcare Management System

- Developed a full-stack application with React frontend and Node.js backend, emphasizing **HTTPS security** and role-based access.
- Utilized **Agile methodologies** to deliver iterative updates aligned with client feedback.

## Education

### Bachelor of Computer Applications (BCA) Equivalent to Licenciatura em Engenharia Informática (Computer Engineering),

Kalinga University

2017 – 2020

## Certificates

Web Application Developer – TechStack Academy

AWS Fundamentals (Self-Studied)
